VENDOR ANNOUNCEMENT
Requirement for Construction Staking Prequalification

Effective last year, to be determined eligible for prequalification in the classification of Construction Staking, MDOT required verification that a vendor had a minimum of one licensed Michigan Professional Surveyor. MDOT is now requesting that a copy of this professional registration for applicable staff be submitted no later than April 6, 2006, **even if this was previously submitted to MDOT.** If we do not receive documentation as proof of a licensed Michigan Professional Surveyor by April 6, 2006, your company will no longer be considered prequalified and eligible to perform work in the Construction Staking classification.

If your company does not currently have a licensed Michigan Professional Surveyor on staff and its prequalification in Construction Staking is revoked, and your company subsequently obtains a licensed surveyor, your company may submit the documentation to MDOT at any time for prequalification consideration.

Please submit this documentation no later than **April 6, 2006**, to:

Carol Rademacher, Manager
Contract Services Division
P.O. Box 30050
Lansing, MI 48909

If you have any further questions, please contact me at (517) 373-3382 or Rademacherc@michigan.gov.
